1. People with Elderly Medical Insurance

*****Methods for calculating insurance premiums, and more. will be changed*****

Elderly medical insurance fees for 2021 will be changing the calculated percent of income, and the measures reducing the equal share paid by all insured persons. Reviewed premiums will be calculated based on 2020 income and insuree's will be notified in the year 2021 with a notice of determination, scheduled to be sent in the middle of August.

$$\boxed{\text{Annual insurance premiums}} = \boxed{\text{Income percent}} + \boxed{\text{Evenly distributed amount}}$$

- Review the method of calculating income percent

$\boxed{\text{Income percent ... (Total income in the previous year, etc - 430,000 yen X 8.07%)}$

*330,000 yen to 100,000 yen will be raised due to tax reform.

Evenly distributed amount
42,100 yen (No change)

- Review measures to reduce the equal share

According to household income, equal allocation measures have been taken to reduce the burden. Due to tax reform and to avoid cases that don't fall under mitigation measures as much as possible, mitigation criteria will be reviewed.

In addition, 7.75% reduction of mitigation measures in FISCAL 2020 was a special case. In fiscal 2021, we will return to the original reduction rate of 7% in order to make medical insurance system fair so that all generations and can be reassured in the future.

Inquiry: National Insurance Pension Division, elderly medical staff at (82)4188.

5. Be Cautious of Phone Calls or Postings Related to Corona Vaccinations!

(Case study)

- ① Received a phone call saying you are granted to get vaccination priority if you pay 100,000yen in deposit. Is it correct?
- ② Received an email with attached URL for grant priority vaccination upon clicking. Looks suspicious.
- ③ Interested in some posted site for investment in Covid vaccine development and heard some details. Transferred 1 million yen as told, but you can't contact anyone after that.

(Explanation)

These are ways to defraud consumers who are confused by the Covid pandemic.

(To avoid this kind of trouble)

- ① Covid Vaccinations in Japan are free of charge. There is no granted priority vaccination right with payment. Refuse absolutely, please.
- ② Emails that prompt you to click a URL are known as phishing emails that pull out personal information. Don't click it and delete the email.
- ③ There is no easy way to earn money. Think you won't get money back after you transfer any money, and consult before you transfer.

If you have any concerns or problems, please get advice at the city consumer affairs center.

Inquiry: Consumer affair center at (83)1629 or Fax (82)4333.
